Course Policies and Articulation Reference

BIO 004 Human Anatomy · Solano Community College · Fall 2026 · 5.0 units · C-ID BIOL 110B

This document accompanies the BIO 004 course syllabus. It carries the material a student needs occasionally and an evaluating institution needs in full: the transfer and articulation designations, the approved student learning outcomes, the college policies that govern the course, and the complete list of course competencies with the lecture and laboratory assessment mode of each.

For articulation and course-equivalency review. Appendix A lists every competency BIO 004 assesses, grouped by module and by topic, each tagged for whether it is assessed on the written lecture examination, in the laboratory practical, or both. Half of every laboratory practical examination is set on cadaveric human dissections and prosections, with the exception of the first practical, where that half is microscopy of tissues. BIO 004 is delivered face to face: all lecture instruction is scheduled, in-person and faculty-led for the full published lecture hours, and all laboratory instruction is scheduled, in-person and faculty-supervised. Cadaveric work is a required and graded part of the course with no alternative pathway, as a program requirement.

01 Course identification and catalog data

CATALOG AND SECTION DATA

Course	BIO 004, Human Anatomy
Units	5.0 semester units
Section	Mon / Wed · Afternoon
CRN	80650
Term	Fall 2026, full term, 17 weeks. Instruction begins August 17, 2026. Term ends December 18, 2026.
First class meeting	Monday, August 17, 2026
Meeting days	Mondays and Wednesdays. Lecture and lab meet on the same day and both are required.
Lecture	12:30 to 1:50 pm, room VC 118, Vacaville Center
Laboratory	2:00 to 4:50 pm, room VC 1137, Vacaville Center
Format	In person. This is a face-to-face course. It is not online, hybrid, or web-enhanced in the sense of reduced seat time.
Lecture instruction	Scheduled, in person, faculty-led guided lecture instruction on both meeting days, for the full published lecture hours. Every lecture session is taught live by the instructor of record in the assigned classroom. Concept lecture videos are assigned in addition, as preparation, and they do not replace, shorten or substitute for any scheduled in-person lecture session. Attendance at lecture is required.
Laboratory instruction	Scheduled, in person, faculty-supervised laboratory on both meeting days, in the assigned anatomy laboratory. Includes prepared slides, models, and cadaveric human dissections and prosections.
Instructor	Dr. Sharilyn Rennie, Professor of Biology
Advisory	BIO 016 and BIO 016L are recommended, and neither is required. Verify current prerequisite and advisory language against the Course Outline of Record and the current college catalog.
Grading	Letter grade. Pass / No Pass may be petitioned through Admissions and Records by the published deadline.

02 Transfer, articulation and general education

BIO 004 is a transfer-level laboratory science course. If you are heading to a CSU or a UC, or into a nursing or allied health program, the codes below are the ones that matter. Confirm anything degree-critical with a counselor, because articulation is set by the receiving campus and it changes.

ARTICULATION AND TRANSFER DESIGNATIONS

C-ID	BIOL 110B (Human Anatomy). Solano BIO 004 carries this designation, so a C-ID BIOL 110B course taken at another California community college is equivalent, and this course is equivalent at theirs.
------	---

Cal-GETC 2026 to 2027	Area 5B, Biological Science, with the laboratory designation. BIO 004 satisfies the Area 5 laboratory requirement on its own. Cal-GETC Area 5 requires one course from 5A and one from 5B, one of which must include a lab, minimum 7 units.
Cal-GETC status	Cal-GETC is the single transfer general education pattern for students transferring to the CSU or the UC. It replaced IGETC and CSU GE Breadth for new transfer students beginning Fall 2025. Students already established on IGETC or CSU GE Breadth should talk to a counselor about which pattern applies to them.
Legacy IGETC	Area 5B with the laboratory designation.
Legacy CSU GE Breadth	Area B2, Life Science, with the B3 laboratory.
CSU transferable	Yes.
UC transferable	Yes. BIO 004 carries the transfer credit limitation flag on the Cal-GETC and IGETC lists, which means credit may be limited by UC or CSU, or by AP, IB or other examination credit you already hold. Check the UC Transfer Course Agreement on assist.org for your specific campus.
Program use	BIO 004 is a prerequisite for the Solano Registered Nursing program and appears in Kinesiology and allied health preparation. The RN program requires a grade of C or better.

Get this checked, do not guess. Counseling is free and it is the difference between a course that counts and a course you repeat. Academic Counseling is in Building 400, Room 404, Fairfield, (707) 864-7101, and appointments can be booked online. Bring this page with you.

03 Course description and student learning outcomes

Catalog description

BIO 004 is a study of the structural organization of the human body, from the cellular to the organismal level. The course uses three modes of investigation: microscopic study of prepared slides of tissues and organs, gross or macroscopic anatomical study, and examination of prosected human material.

This is a pure anatomy course. We are after structure: what a thing is, where it sits, what it looks like, and how it relates to everything packed in around it. Where function is named, it is named because it explains a structure, and it is labelled as a physiology note when it appears. What runs through all of it is clinical context, because a structure you have seen matter to a real patient is a structure you remember.

Student learning outcomes

By the end of this course you should be able to:

1. Identify and distinguish tissues using currently recognized criteria.
2. Describe the microscopic and gross anatomy of the major systems of the human body.
3. Identify, in the laboratory, the major microscopic and gross structures of those systems.

These three outcomes are the official ones. Everything in Appendix A sits underneath them, and every exam question in this course traces back to one of the three.

04 The competency framework

The three outcomes above are broad by design. Underneath them sit 193 competencies, each one a single thing you should be able to do, written so you can test yourself against it honestly.

- Every competency belongs to exactly one module, and every module closes with one lecture exam and one lab practical. If a competency is in Module 3, you meet it on Exam 3.
- Each competency is tagged Lecture, Lab, or both. Lecture means it is examinable in writing. Lab means you have to find it and name it on a slide, a model, a chart, or prosected material. 102 of the 193 are marked core, meaning they are the ones I would not sit an exam without.
- The Mastery OS study app tracks your progress against this same list, so your practice, your spaced recall, and your weakness dashboard all speak the same language as the exams.

The full list is Appendix A at the back of this document. Use it as a checklist. When you can do the thing the competency describes without looking, that one is done.

05 Nondiscrimination and equal opportunity

The Solano County Community College District is subject to all laws governing equal opportunity, including but not limited to Title VI and Title VII of the Civil Rights Act of 1964, Executive Order No. 11246 of 1965, Title IX of the Educational Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, the California Fair Employment Practices Act of 1959, the Americans With Disabilities Act of 1990, and the Age Discrimination and Employment Act of 1972.

Solano Community College does not discriminate on the basis of sex, sexual orientation, race, color, religious creed, national origin, marital status, veteran status, medical condition, age over 40, pregnancy, disability, or political affiliation in its education programs and employment practices. Inquiries concerning compliance, and complaints, may be addressed to Human Resources at (707) 864–7128.

The governing policies are Board Policy 5360, Equal Opportunity for Students, Board Policy 4030, Nondiscrimination, and Board Policy 4285, Unlawful Prohibited Discrimination.

In this classroom, that policy is a floor and not a ceiling. Everyone in this room is here to learn anatomy, and everyone in this room gets to do that without having to absorb anything unpleasant first. If something happens in my class that makes that untrue for you, tell me and I will deal with it.

06 Title IX and sexual harassment

Title IX of the Educational Amendments of 1972 prohibits discrimination on the basis of sex in education programs and activities, which includes sexual harassment, sexual violence, and discrimination based on pregnancy or parenting status. Solano's policy is Board Policy 4270, Sexual Harassment, which covers both employees and students.

Where to report	Title IX Administrator for the Solano Community College District, through Human Resources, (707) 864–7128
Office	Building 600, 4000 Suisun Valley Road, Fairfield, CA 94534
Complaint form	The Discrimination Complaint form on the Solano Student Services website
External	U.S. Department of Education, Office for Civil Rights, San Francisco, (415) 556–4275
Support	Wellness Center, wellnesscenter@solano.edu. SafeQuest Solano 24–hour line, (866) 487–7233

Board Policy 4270 requires all employees and students to report conduct of this kind to their immediate supervisor or a school official. Please understand what that means for a conversation with me: if you disclose sexual harassment or sexual violence to me, I am obliged to pass it on. If you want to talk to someone who does not have that obligation, the Wellness Center and SafeQuest are the right doors, and I will help you get to either one.

07 Academic freedom

The Solano Community College District affirms its belief in the academic freedom of its full time and adjunct faculty and students to engage in any teaching, studying, research, writing and criticism deemed appropriate by such individuals to the spirit of free inquiry and the pursuit of truth. Faculty and students are protected from restraints or pressures designed to create fears and anxieties that may inhibit them from freely studying and investigating.

With that comes a responsibility. Each faculty member and student should strive to be accurate, should exercise appropriate restraint, should show respect for the opinions of others, and must indicate that they do not necessarily speak for the college.

08 Grades, grading symbols and academic standing

This section is college policy, not course policy. It applies to every class you take at Solano, and students lose units to it every term by not knowing it.

GRADING SYMBOLS

SYMBOL	MEANING	POINTS
A	Excellent	4
B	Good	3
C	Satisfactory	2
D	Passing, less than satisfactory	1
F	Failing	0

SYMBOL	MEANING	POINTS
P	Credit, at least satisfactory. Represents a letter grade of A, B or C	Not counted in GPA
NP	No credit, less than satisfactory or failing. Represents a D or F	Not counted in GPA
I	Incomplete	Not counted
RD	Report delayed	Not counted
W	Withdrawal	Not counted
MW	Military withdrawal	Not counted

Your grade point average is the total grade points earned divided by the total units attempted, excluding Pass and No Pass courses.

Pass and No Pass

The P and NP option exists to encourage students to take challenging courses for electives outside the major without undue concern for grades. You are limited to a total of 15 semester units under the P and NP option, and a petition must be filed with the Office of Admissions and Records. The Fall 2026 deadline to file is December 11, 2026. Think carefully before choosing this option in BIO 004: transfer institutions and nursing programs frequently require a letter grade in prerequisite science courses, and the Solano RN program requires a C or better.

Incomplete

An Incomplete applies only when a student has failed to complete the final examination, a class project or a term paper because of illness or severe personal problems. It requires an Incomplete Grade Contract with a preliminary grade recorded. The work must be completed within one calendar year, and you may not re-enroll in a course where you hold an Incomplete.

Course repetition

Students receiving a D, F or NC may repeat the course immediately, except in impacted programs. When a course is repeated to improve a grade, the subsequent grade is used in determining the grade point average. Repeating a course in which you earned a C or better requires extenuating circumstances and Academic Council approval, and those grades are not counted in the GPA.

Academic renewal

Under Board Policy and Administrative Procedure 5110, up to 30 units of substandard work, meaning D, F or NC, may be disregarded in the GPA. The coursework must have been completed at least three semesters before the petition, and you must have since completed at least 15 units with a C or better. The permanent record is coded so the original grades are not reflected in the grade point average, and the courses remain on the permanent record.

Probation and dismissal

Under Board Policy and Administrative Procedure 5100, a student who has attempted 12 or more units is placed on probation when the semester or cumulative grade point average falls below 2.0. Dismissal follows three consecutive probationary semesters below 2.0, or three consecutive semesters in which 50 percent or more of entries are W, I or NC.

09 Student support services

All of these are free, all of them are already paid for by your enrollment, and every one of them is used most by the students who do best. Using them is not a sign that something has gone wrong.

WHERE TO GO, AND HOW TO REACH THEM

SERVICE	WHERE	CONTACT
Academic Success and Tutoring Center	Fairfield Library Room 114, Vacaville Room 138, Vallejo Room 124. Free, in person and online over Zoom, plus NetTutor 24 hours a day through Canvas	(707) 864-7000 ext 7230, astc@solano.edu
Accessibility Services Center	Building 400, Room 407, Fairfield	(707) 864-7136, asc@solano.edu
Academic Counseling	Building 400, Room 404	(707) 864-7101, counseling@solano.edu
Wellness Center, mental health	Fairfield Building 1400 Room 1428, Vallejo Room 213, Vacaville MUB 140	wellnesscenter@solano.edu
Crisis support	Available 24 hours	988 Suicide and Crisis Lifeline. Crisis Text Line, text COURAGE to 741741. SafeQuest Solano (866) 487-7233. Solano County Behavioral Health 24-hour crisis line (707) 428-1131
Basic Needs Center and food pantry	Building 1400, Room 1409	(707) 864-7261, basic.needs@solano.edu
Library	Building 100, Fairfield	(707) 864-4519, libraryreference.desk@solano.edu
EOPS	Building 400, Room 429	(707) 863-7888, eops@solano.edu
Veterans Resource Center	Building 2700, Room 2750, and Travis AFB Building 249	(707) 864-7105, veterans@solano.edu
Financial Aid	Building 400, Room 425	(707) 864-7103, financialaid@solano.edu
Admissions and Records	Building 400, first floor	(707) 864-7171, admissions@solano.edu
Canvas support	For login, submission or video playback problems	(844) 303-0354, de@solano.edu

If you are hungry, or you are not sure where you are sleeping, start with the Basic Needs Center. Building 1400, Room 1409. You do not have to explain yourself to me first, and it will not change how I grade you. It is very hard to learn the brachial plexus on an empty stomach and there is no reason you should have to try.

10 Emergency procedures and campus safety

- **In an emergency, call 9–1–1.**
- Solano Community College Department of Public Safety, Building 1800B. Non-emergency (707) 580–6526, also (707) 864–7131, sccdps@solano.edu.
- **RAVE Alert** is the college's official emergency notification system. Enroll by texting SolanoCollegeRaveEnroll to 67283. Do this in Week 1. It is how you will find out the campus is closed before you drive to it.
- Know the exits from our lecture room and our lab. In a lab evacuation, leave your work where it is, remove gloves, and go. Nothing on the bench is worth going back for.
- Report an injury or a chemical or sharps exposure in the lab to me immediately, before you leave the room, no matter how small it seems.

11 Where to get help, and the course tools

In order, when you are stuck

1. **Your team.** First line of support. Use your team chat.
2. **The Virtual Office board in Canvas.** If you have the question, someone else has it too, and the answer helps everybody.
3. **Office hours,** 30 minutes before each class in our own room, or by appointment.
4. **Canvas Inbox or srennie@solano.edu,** 48 to 72 hour weekday reply.
5. **ASTC tutoring,** free, in person at Fairfield, Vacaville and Vallejo or online over Zoom. (707) 864–7000 extension 7230, astc@solano.edu.

The course tools

TOOL	WHAT IT IS FOR
Start Here	Your day one page. The short Week 1 checklist that gets you set up fast.
Mastery OS	The study app. Track your competencies, run spaced recall, find your weak spots, and try teaching a concept to an AI to see whether you really have it.
Course calendar	Clickable day by day. Click any day for the lecture, the lab and the night-before pre-work.
Exam modules	The five modules and exactly what each exam covers.
Digital Human Anatomy Atlas	Labeled structure reference by module.
Lecture videos	The online concept lectures, one per topic. This is where the content is taught. Work the guided worksheet against them, then use them again to check what you worked out.
Loops videos	Practice and interactive lab videos. Rehearsal, not instruction. Use them after class to run the lab structures again and again until they are automatic.
Your section hub	Mon / Wed · Afternoon. Your schedule, your dates, your materials.

Everything above is reachable from the course home page, and it is linked in Canvas. Bookmark four: Start Here, the course calendar, the Mastery OS, and this syllabus.

12 Syllabus status and changes

- This syllabus is the course agreement between us for Fall 2026. It is written to be consistent with the approved Course Outline of Record for BIO 004 and with Solano Community College Board Policy and Administrative Procedure.
- Where a course rule here and a college policy could be read differently, college policy governs, and the current college catalog and the Board Policy manual are the authoritative texts.
- I may need to adjust dates, activities or the order of content as the term goes. I will announce any change in class and in Canvas. Grade weights and exam policy will not change.
- Verify articulation, transfer and degree applicability with a counselor. Those are set by the receiving institution and they change independently of this course.
- Version: Fall 2026, section Mon / Wed · Afternoon, CRN 80650.
