

Workbook: Axial Skeleton — Spine, Ribs, Sternum

Week 2 workbook · BIO 004 Human Anatomy · Dr. Sharilyn Rennie · Solano Community College

A comprehensive workbook on the vertebral column, the ribs, and the sternum: the curvatures, the regional types of vertebrae, the special vertebrae of the neck, the intervertebral discs, the rib classifications, and clinical anatomy of the spine.

How to use this workbook: Read each question carefully and write your answer in the space provided. Work without looking up the answer first. Once you have written your answer, check it against the online workbook by clicking *Reveal* on that question. Star or circle anything you missed and come back to it later in the week.

The vertebral column · 3 questions

Q01 · DOK 1 · Recall

Name the regions of the vertebral column and the number of vertebrae in each.

Q02 · DOK 1 · Recall

Name the four normal curvatures of the spine and their direction (concave or convex anteriorly).

Q03 · DOK 1 · Recall

Name three abnormal curvatures of the spine.

A typical vertebra and the regional types · 5 questions

Q04 · DOK 1 · Recall

Name the major parts of a typical vertebra.

Q05 · DOK 1 · Recall

What distinguishes a typical cervical vertebra from other regions?

Q06 · DOK 1 · Recall

What distinguishes a typical thoracic vertebra from other regions?

Q07 · DOK 1 · Recall

What distinguishes a typical lumbar vertebra from other regions?

Q08 · DOK 1 · Recall

What is the sacrum, and what is the coccyx?

The special cervical vertebrae · 2 questions**Q09 · DOK 1 · Recall**

What is the atlas, and what makes it unusual?

What is the axis, and what does its special projection do?

Name the two parts of an intervertebral disc and what each is made of.

What do intervertebral discs do?

A 'slipped disc' is herniation of disc material posterolaterally. Using disc anatomy, predict what tissue is escaping and what it presses on.

Page 3

Q14 • DOK 1 • Recall

How many pairs of ribs do humans have, and how are they classified anteriorly?

Q15 • DOK 1 • Recall

Name the major parts of a typical rib.

Q16 • DOK 1 • Recall

Name the three parts of the sternum.
