

Workbook: Endocrine System

Week 6 workbook · BIO 004 Human Anatomy · Dr. Sharilyn Rennie · Solano Community College

A comprehensive workbook on the major endocrine organs from an anatomy standpoint: location, structure, and the principal hormones each secretes. Basic functions are included; detailed feedback loops and mechanisms belong elsewhere.

How to use this workbook: Read each question carefully and write your answer in the space provided. Work without looking up the answer first. Once you have written your answer, check it against the online workbook by clicking *Reveal* on that question. Star or circle anything you missed and come back to it later in the week.

Endocrine overview · 2 questions

Q01 · DOK 1 · Recall

Compare endocrine and exocrine glands by anatomy and how each delivers its product.

Q02 · DOK 1 · Recall

List the major endocrine glands of the body.

Pituitary and hypothalamus · 4 questions

Q03 · DOK 1 · Recall

Where does the pituitary gland sit?

Q04 · DOK 2 · Compare

Compare the anterior and posterior pituitary by tissue origin and how they connect to the hypothalamus.

Q05 · DOK 1 · Recall

Name the major hormones of the anterior pituitary.

Q06 · DOK 1 · Recall

Name the two hormones released by the posterior pituitary and what each does in basic terms.

Thyroid and parathyroids · 3 questions**Q07 · DOK 1 · Recall**

Where is the thyroid, and what is its general shape?

Q08 · DOK 1 · Recall

Name the two cell types of the thyroid and what each produces.

Q09 · DOK 1 · Recall

Where are the parathyroid glands, and what do they do?

Adrenal glands · 2 questions**Q10 · DOK 1 · Recall**

Where do the adrenal glands sit?

Q11 · DOK 2 · Compare

Compare the adrenal cortex and adrenal medulla by tissue origin and what each secretes.

Pancreas, gonads, pineal, thymus · 4 questions**Q12 · DOK 1 · Recall**

What are the pancreatic islets, and what are their main cell types?

Q13 · DOK 1 · Recall

What hormones do the testes and ovaries produce, beyond their gamete production role?

Q14 · DOK 1 · Recall

Where is the pineal gland, and what does it secrete?

Q15 · DOK 1 · Recall

Why is the thymus considered both a lymphoid and an endocrine organ?
