

Workbook: Urinary System

Week 6 workbook · BIO 004 Human Anatomy · Dr. Sharilyn Rennie · Solano Community College

A comprehensive workbook on the gross and microscopic anatomy of the urinary system: kidneys, the nephron, ureters, bladder, and urethra.

How to use this workbook: Read each question carefully and write your answer in the space provided. Work without looking up the answer first. Once you have written your answer, check it against the online workbook by clicking *Reveal* on that question. Star or circle anything you missed and come back to it later in the week.

The kidneys · 4 questions

Q01 · DOK 1 · Recall

Where do the kidneys sit, and what makes their position unusual?

Q02 · DOK 1 · Recall

Name the three layers of tissue surrounding each kidney, from outside in.

Q03 · DOK 1 · Recall

Name the major gross structures inside a kidney from outside in.

Q04 · DOK 1 · Recall

What is the renal hilum, and what passes through it?

The nephron • 4 questions

Q05 • DOK 1 • Recall

What is a nephron, and roughly how many are in each kidney?

Q06 • DOK 1 • Recall

Name the major parts of a nephron in order from blood entry to where urine drains out.

Q07 • DOK 1 • Recall

What is the renal corpuscle, and what are its two parts?

Q08 • DOK 2 • Compare

Compare cortical and juxtamedullary nephrons.

Ureters, bladder, urethra • 5 questions

Q09 • DOK 1 • Recall

Describe the ureters and how they connect kidneys to the bladder.

Q10 · DOK 1 · Recall

Describe the urinary bladder.

Q11 · DOK 1 · Recall

What kind of epithelium lines the bladder, and why?

Q12 · DOK 2 · Compare

Compare the male and female urethra.

Q13 · DOK 1 · Recall

Compare the internal and external urethral sphincters by tissue type and control.
