

COURSE TOURS

# Scan and watch

Short tours of this course, one per thing you will use. Scan a code with your phone and watch there while you follow along on your computer, two screens and no tab juggling.

Keep this page, or pin it up somewhere you study.

- 1 Open your phone camera
- 2 Point it at a code
- 3 Tap the link, then follow along on your computer

|                                                                                                                                                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                                                                                                             |
