

COURSE TOURS

Scan and watch

Short tours of this course, one per thing you will use. Scan a code with your phone and watch there while you follow along on your computer, two screens and no tab juggling.

Keep this page, or pin it up somewhere you study.

- 1 Open your phone camera
- 2 Point it at a code
- 3 Tap the link, then follow along on your computer

 VIDEO READY Start here Welcome, your first page, and the calendar What this course is, the page you land on, and how to read the calendar day by day.  SCAN TO WATCH	 VIDEO READY Course materials Everything, by module Notes, pre-work sheets, videos and workbooks for every class day, sorted by module.  SCAN TO WATCH	 VIDEO READY Syllabus How the course runs Grading, attendance, late work, and every date that matters for your section. ABOUT AN HOUR, THE LONGEST TOUR  SCAN TO WATCH	 VIDEO COMING Mastery OS Your study engine Spaced recall, weak spots, and a plan built around your exam dates.  SCAN TO OPEN	 VIDEO COMING Lab sprints Every structure What you are responsible for on the models, with a checkbox for each one.  SCAN TO OPEN
 VIDEO COMING Digital Atlas Turn it around Explore structures in three dimensions before you meet them in lab.  SCAN TO OPEN	 VIDEO COMING Loops Fast visual practice Thirty-nine image loops. Good for the ten minutes between other things.  SCAN TO OPEN	 VIDEO COMING Practice exam A simulated exam A practice paper built to look like the real one, scored as soon as you finish, with the reasoning shown. None of it counts toward your grade.  SCAN TO OPEN	 VIDEO READY Study With Me Study together Live co-study sessions, and verified engagement hours toward Scholar Points.  SCAN TO WATCH
