

Drawing sheet · The Heart

The drawing frames from your pre-work, on a page of their own. Draw on it on a tablet, or print it and draw by hand. Either way, draw from memory first, then open your notes and correct yourself in a second color.

Module 3 · 2 of 4

Bring this to class

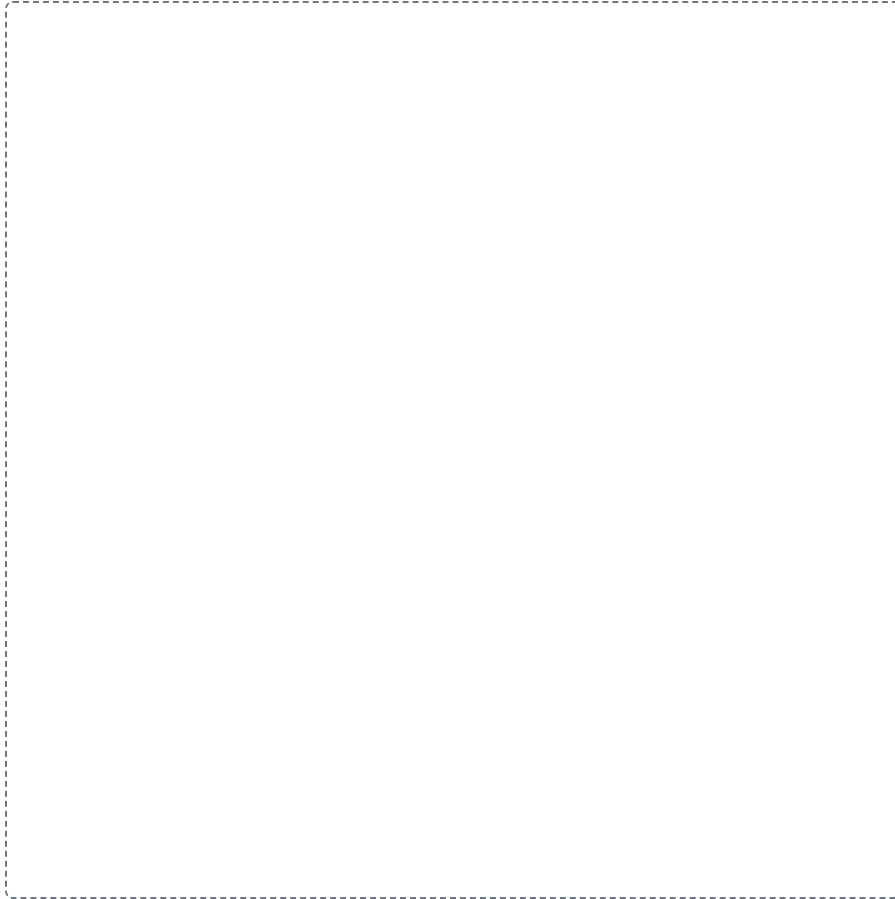

Mini visual sheet

Each frame tells you what to draw in it and what to label. Do them with your notes closed, then open your notes and correct yourself in a second color. Draw straight onto this sheet. If a frame is too small for your handwriting, draw that one in your notebook instead and write the frame number at the top of the page so you can find it again.

The heart wall and pericardium

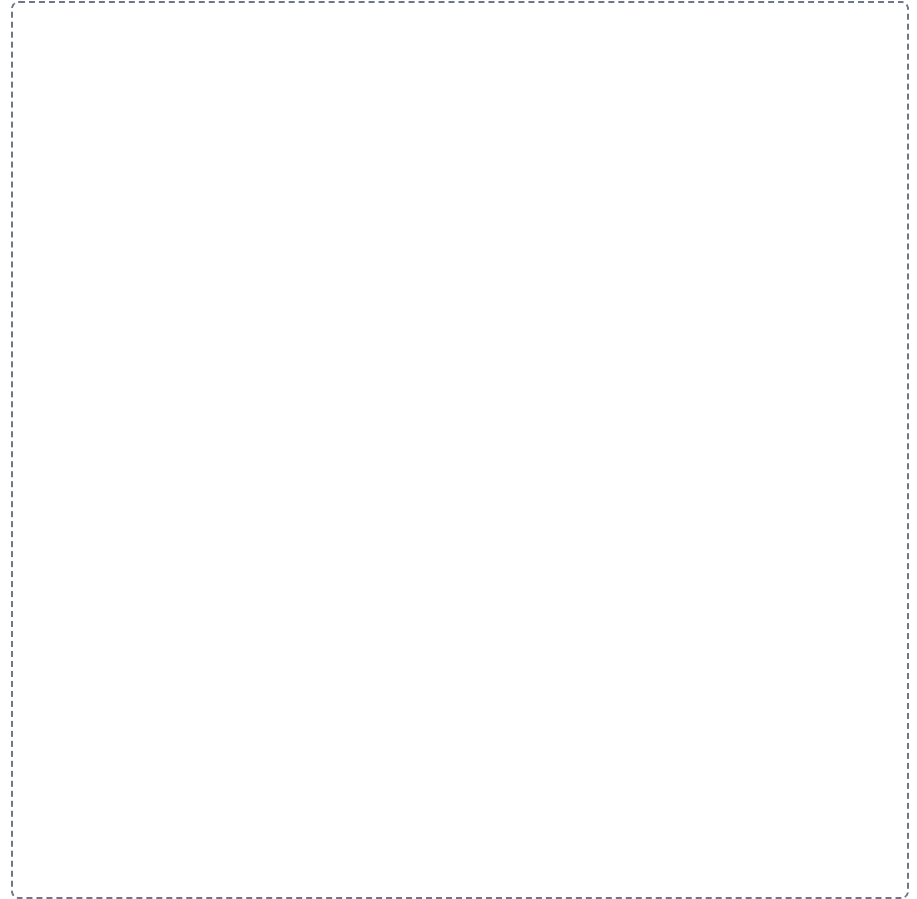

LADDER

Draw the levels in order down the frame, the first one at the top. Label each level and write one line saying how it differs from the level above it.

**The four chambers**

GRID

Draw a grid. List the things being compared down the left side, write the features you are comparing them on across the top, and fill in every box.

The four valves

GRID

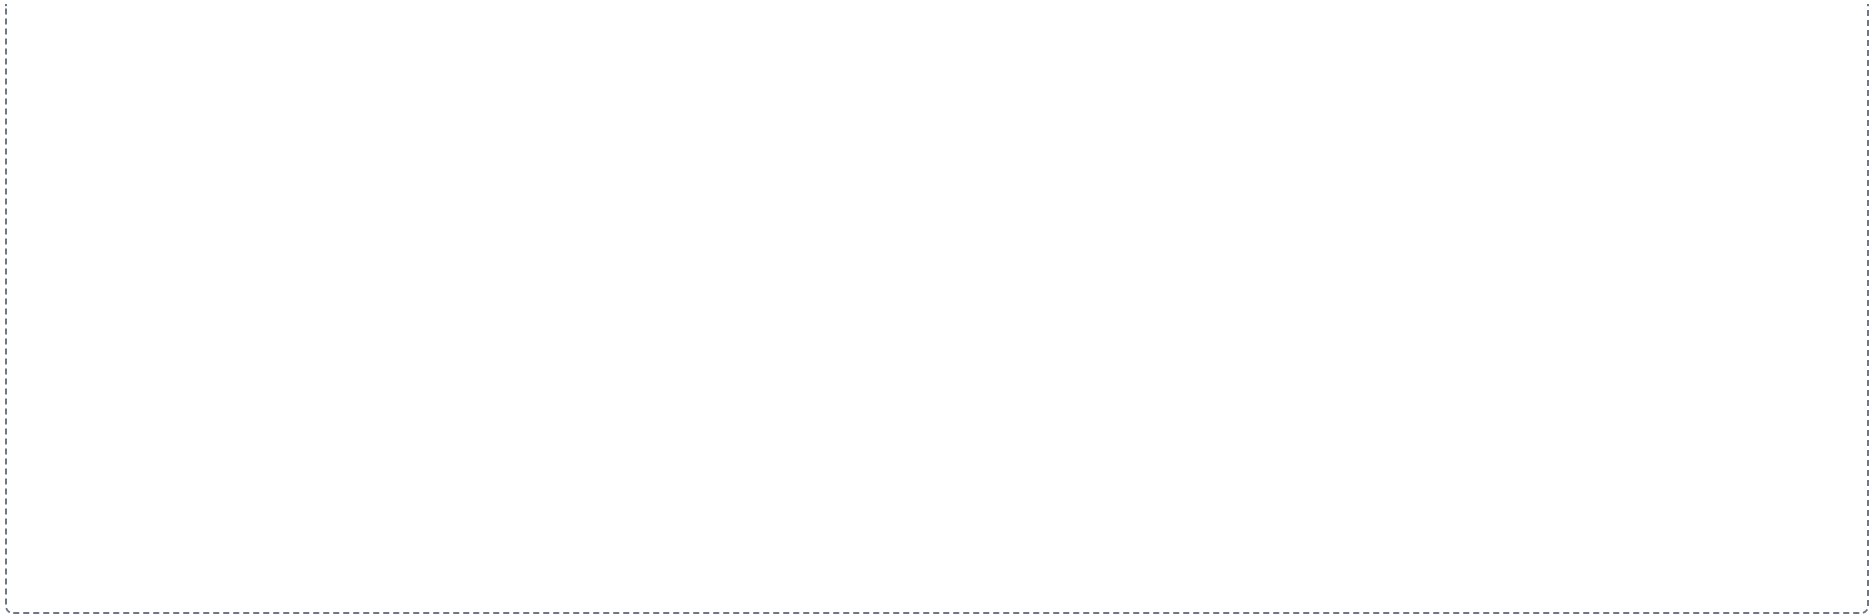

Draw a grid. List the things being compared down the left side, write the features you are comparing them on across the top, and fill in every box.

The pathway of blood, nine steps

CHAIN

Draw the steps left to right with an arrow between each one. Label every step, and on each arrow write what happens to get to the next.

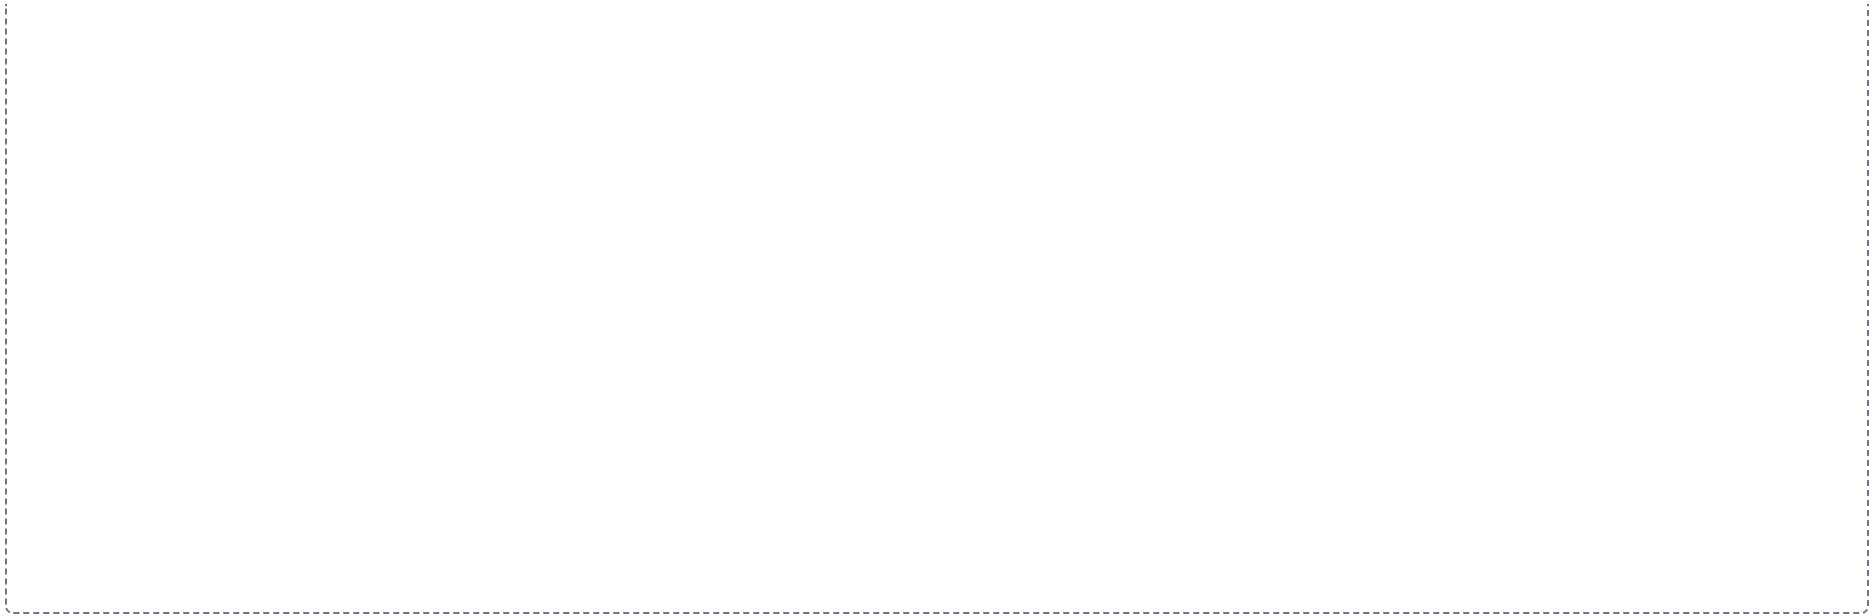

The conduction pathway, six steps

CHAIN

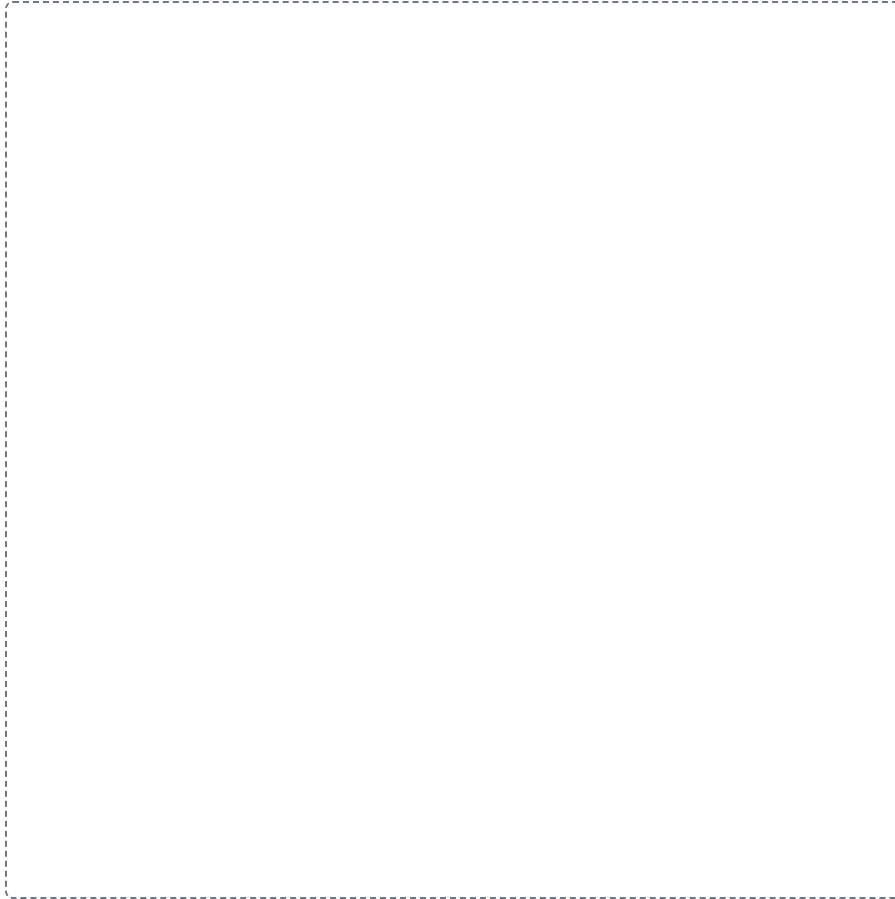

Draw the steps left to right with an arrow between each one. Label every step, and on each arrow write what happens to get to the next.

Coronary circulation**HUB**

Put the main structure in the middle of the frame. Draw everything that belongs to it around the outside, label each one, and run a line from each back to the middle.
