

BIO 004 • HUMAN ANATOMY

Study With Me **Anatomy**

Nobody gets through anatomy alone.

One person hosts. A few people show up. Everybody says the anatomy out loud instead of watching one person talk.

Online or in person, an hour is plenty. No lesson plan, no experience needed.

STUDENTS	Claim a seat, or offer to host one. Hosting and going both count the same.
TUTORS	Put your session on the schedule so the people who need it can find it.
FACULTY	Post a review, or an event that helps students. Tell your class to look for the sessions that will get them through.
