

COURSE TOURS

Scan and watch

Short tours of this course, one per thing you will use. Scan a code with your phone and watch there while you follow along on your computer, two screens and no tab juggling.

Keep this page, or pin it up somewhere you study.

- 1 Open your phone camera
- 2 Point it at a code
- 3 Tap the link, then follow along on your computer

Start here

Welcome, your first page, and the calendar

What this course is, the page you land on, and how to read the calendar day by day.

SCAN TO WATCH

Course materials

Everything, by module

Notes, pre-work sheets, videos and workbooks for every class day, sorted by module.

SCAN TO WATCH

Syllabus

How the course runs

Grading, attendance, late work, and every date that matters for your section.

ABOUT AN HOUR, THE LONGEST TOUR

SCAN TO WATCH

Mastery OS

Your study engine

Spaced recall, weak spots, and a plan built around your exam dates.

SCAN TO WATCH

Lab materials

Sprints, Atlas, Loops, histology

The lab sprint checklists, the Digital Atlas in three dimensions, thirty-nine image loops, and the histology slide tools. What each one is for and when to reach for it.

SCAN TO WATCH

Practice exam

A simulated exam

A practice paper built to look like the real one, scored as soon as you finish, with the reasoning shown. None of it counts toward your grade.

SCAN TO WATCH

Study With Me

Study together

Live co-study sessions, and verified engagement hours toward Scholar Points.
