

Workbook: Anatomical Terminology

Week 1 workbook · BIO 004 Human Anatomy · Dr. Sharilyn Rennie · Solano Community College

A focused workbook on anatomical position, directional terms, body planes and sections, and regional body terms. This material is the language anatomy uses to describe everything else.

How to use this workbook: Read each question carefully and write your answer in the space provided. Work without looking up the answer first. Once you have written your answer, check it against the online workbook by clicking *Reveal* on that question. Star or circle anything you missed and come back to it later in the week.

Position, planes, and directional terms · 4 questions

Q01 · DOK 1 · Recall

Define anatomical position.

Q02 · DOK 1 · Recall

Name the three primary anatomical planes and how each cuts the body.

Q03 · DOK 1 · Recall

Define these directional pairs and give an example use for each: anterior/posterior, medial/lateral, superior/inferior, superficial/deep.

Q04 • DOK 2 • Apply

Define proximal and distal, and explain why they differ from superior and inferior.

Regional terms • 4 questions**Q05 • DOK 1 • Recall**

Name the regional terms for the major parts of the head.

Q06 • DOK 1 • Recall

Name the regional terms for the major regions of the trunk.

Q07 • DOK 1 • Recall

Name the regional terms for the upper limb.

Q08 • DOK 1 • Recall

Name the regional terms for the lower limb.
