

Workbook: Nervous Tissue

Week 7 workbook · BIO 004 Human Anatomy · Dr. Sharilyn Rennie · Solano Community College

A comprehensive workbook on the cells of the nervous system: neurons and their parts, neuroglia of the CNS and PNS, myelination, and the basic anatomy of a synapse.

How to use this workbook: Read each question carefully and write your answer in the space provided. Work without looking up the answer first. Once you have written your answer, check it against the online workbook by clicking *Reveal* on that question. Star or circle anything you missed and come back to it later in the week.

Neurons · 5 questions

Q01 · DOK 1 · Recall

Name the three main parts of a neuron and the role of each.

Q02 · DOK 1 · Recall

Name the major features of an axon.

Q03 · DOK 2 · Compare

Compare the three structural types of neurons.

Q04 • DOK 1 • Recall

Compare the three functional types of neurons.

Q05 • DOK 1 • Recall

What are Nissl bodies in a neuron, and what does their presence tell you?

Neuroglia • 4 questions**Q06 • DOK 1 • Recall**

Name the four glial cells of the central nervous system and what each does.

Q07 • DOK 1 • Recall

Name the two glial cells of the peripheral nervous system and what each does.

Q08 • DOK 2 • Compare

Compare myelination in the CNS and PNS.

Q09 · DOK 2 · Apply

What are nodes of Ranvier, and why do they matter functionally?

Synapse and signal transmission · 2 questions**Q10 · DOK 1 · Recall**

What is a synapse, and name its main structural components.

Q11 · DOK 2 · Compare

Compare chemical and electrical synapses.
