

Workbook: Pregnancy and Birth

Week 6 workbook · BIO 004 Human Anatomy · Dr. Sharilyn Rennie · Solano Community College

A focused anatomy workbook on the structures of pregnancy and birth: the placenta and umbilical cord, fetal anatomical adaptations, and the anatomy of labor.

How to use this workbook: Read each question carefully and write your answer in the space provided. Work without looking up the answer first. Once you have written your answer, check it against the online workbook by clicking *Reveal* on that question. Star or circle anything you missed and come back to it later in the week.

Placenta and cord · 3 questions

Q01 · DOK 1 · Recall

What is the placenta, and what two tissues form it?

Q02 · DOK 1 · Recall

List the major functions of the placenta.

Q03 · DOK 1 · Recall

Describe the umbilical cord.

Fetal circulation adaptations · 2 questions

Q04 · DOK 2 · Apply

Name the three fetal circulatory shunts and what each bypasses.

Q05 · DOK 2 · Apply

What happens to the fetal shunts at birth, and why?

Labor and birth · 2 questions**Q06 · DOK 1 · Recall**

Name the three stages of labor.

Q07 · DOK 2 · Apply

What features of the female pelvis make labor possible?
